Patrick will be in Court with Mr. Pillon next Friday – perhaps we could get an agreed order to dispose of the samples at that time. I assume that Mr. Pillon will not mind since he is stipulating to the lab results. That said, I would feel much more comfortable with a signed order of disposal.

Patrick – what are your thoughts? We can discuss this afternoon when we chat.

Scott

Scott,

Please see below regarding retention of samples from the Pillon site (I called it May Creek while setting up the project).

I'm (b) (6) so I'm responding via iPhone.

This case is going to trial soon. I'm being deposed the week of January 15. The trial is soon after.

I will forward your email to the WA attorney general's office and EPA's site attorney, Kris Leefers.

I will let you know their response.

Thanks for your patience.

Hi Jeff,

Can we have permission to dispose of the remaining samples from the May Creek Landfill project collected in February of 2016?

Please respond to this email so that we can put a copy in the file.

Thanks!

Hi Jeff,

Could I dispose of the remaining sample volume from the May Creek SFP-104A project , Please see the PdF files for samples we have stored in question...

Let me know if you need signed copies of the attached. This completes the analyses under project code SFP-104A. If you could take a moment to fill out and return to me and Barry Pepich the attached survey form it will be appreciated.
